

**“Do not ask us where we Fly —
Tell us where you want to go!”**

Hauling equipment throughout the north is a difficult and complex task. An air carrier has to be versatile to handle the many different kinds of loads delivering to many difficult sites. Lambair is geared to meet all the requirements. The huge Bristol Freighter above can handle the most difficult tasks with a capacity to land on difficult terrain. In addition a fleet of helicopters and other aircraft are always at the ready to serve your needs.
